

Assignment: Peer Review for Ben Stearns

Author: Taylor Rath

Date: 1/29/2026

Ben was great to work with as a peer partner considering I've never experienced coding with another person until now. He was patient with me figuring out the code and answering questions as I'm still new with understanding JavaScript. He seems to be more versed in coding compared to me, so it was nice having someone familiar with the language working alongside me.
