

Assignment: Peer Review for Taylor Rath

Author: Ben Stearns

Date: 1-27-26

Taylor showed a willingness to contribute to the project in a sizable way while also showing a determination to figure things out on her own. She was also very chill to work with and was very patient with me. I know I tend to take charge of projects as I'm still new to pair programming, but she was awesome.

I'm not sure of her coding background, but my only suggestion for her would be to consider taking an assignment like this as seeing if she can recreate it on her own. Recreating as much of an assignment from memory as she can is even better. Doing so is an excellent way to solidify concepts. It helped me a lot.
